Churu, India 331001

SUMMARY

I am a passionate Web Developer with a diverse skill set that includes expertise in React, MongoDB, Node.js, HTML5, CSS3, Git, Express.js, Typescript, Cloudflare, Angular, Redis, Docker, Tailwind CSS, and Bootstrap. As a self-driven individual, I have taken the initiative to learn and grow through online resources, and I take pride in my ability to adapt quickly to new technologies.

With a strong foundation in web development, I have worked on various projects, refining my teamwork and communication skills, making me an excellent team player.

I am eager to collaborate with like-minded professionals and organizations to create innovative and user-friendly web applications. My dedication to continuous learning drives me to stay updated with the latest industry trends, ensuring that I deliver cutting-edge solutions.

In my career, I aim to make a difference through my work. I am excited to embark on new challenges, embrace opportunities for growth, and strive for excellence in all my endeavors.
